

The highlights of this release are:

- State Direct Business Name Searches – Data for most states will be completely current
- Create a Filing from a Business Name Search – Save time and prevent typing errors by using your search to create a filing

## State Direct Business Name Searches

State Direct is now available for the Business Name Search from the Home or Filing pages and for the Business Entity Information Name Search from the Search Public Records page. The most current data from the states is used for State Direct, and all states are available except for Alabama, Virginia and Wisconsin, which will continue to use the iLien data.

All of these searches will be saved in the Search/Order Portfolio. The design of the Business Name Search from the Filing pages has been changed to match the other pages and “Business Entity Information” will be used as the Search Type in the Portfolio.

Home Page	Filing Pages	Search Public Records Page
 <p>Business Name Search</p> <p>Business Name*</p> <p>State</p> <p>New York <a href="#">Set Default</a></p> <p><b>Go</b></p>	 <p>Name Lookup Business Name Search</p> <p>Street2</p> <p>* State/Province Alabama</p>	 <p>Type</p> <ul style="list-style-type: none"> <li>Business Entity Information</li> <li>Comprehensive</li> <li>D&amp;B Business Reports</li> <li>Real Property</li> <li>Suits/Liens/Judgments</li> <li>Uniform Commercial Code</li> </ul>

The available data and format may vary from the iLien database searches and may also vary from one state to another.

Since there are additional fees for New Jersey, Oklahoma and Texas, your default Search/Order Preference for the Business Name Search will be to “Use State Direct, when available, for states with no additional fees.” When this Preference is selected, the iLien database search will be used for the states with additional State Direct fees.

The additional detail record fee for New Jersey and Oklahoma is \$5.00 per record. State Direct searches for Texas will incur a \$1.00 for summary records and a \$1.00 per detail record. These fees can change at any time.

There are no data or fee changes for Delaware. The data for Delaware has always been retrieved directly from the state’s system, and there will still be a search fee for each detail record.

The other preferences which can be selected are “Use State Direct, when available, for all states” or “Use iLien data for all states.”

When you have finished making your Preference selections, click Update

**Business Name Search**

Update View Defaults

Default Business Name Search:

Use State Direct, when available, for states with no additional fees  
 Use State Direct, when available, for all states  
 Use iLien data for all states

Different preferences can be selected for Business Name Searches (from the Home and Filing pages) and Business Entity Information Name Searches (from the Search Public Records page).

When you have finished making your Preference selections, click Update

**Search Preferences**

Update View Defaults

Default Business Entity Name Search:

Use State Direct, when available, for states with no additional fees  
 Use State Direct, when available, for states with no additional fees  
 Use State Direct, when available, for all states  
 Use iLien data for all states

If we receive an error when trying to run the State Direct Business Name search from the Home or Filing pages, then you'll receive the message below.

"We received an error in returning data from State Direct and have used the iLien database instead, which may have a different currency date."

When using State Direct for the Business Entity Information Name search from the Search Public Records page, you may receive one of the messages below if we received an error or if the state's system isn't available.

"Would you like to perform an iLien database search instead?  
 We received an error in returning data from State Direct. The database currency date is 07/01/2009."

-or-

"Would you like to perform an iLien database search instead?  
 State Direct is not available. The database currency date is 07/01/2009."

## Create a Filing from a Business Name Search

Save time and prevent typing errors by creating a filing from a Business Name Search in your Search/Order Portfolio.

After you find the search in your Portfolio, click on the Create Filing button from the Portfolio or Search/Order Details pages.

VIEW	SELECT	ITEM	NAME ON SEARCH/ORDER	TYPE	DOCUMENT DETAILS	JURISDICTION	STATUS	ACTION
	<input type="checkbox"/>	1	MOUNTAIN HIGH	Business Entity Information	Business Name Search (Summary)	MT:Sec. of State	Completed	<a href="#">Create Filing</a>
	<input type="checkbox"/>	2	MOUNTAIN HIGH	Business Entity Information	Business Name Search (Detail)	MT:Sec. of State	Completed	<a href="#">Create Filing</a>

If you create a filing from a detail search record, the Create a Filing page will then load with the data that can be transferred from the search to the filing fields. Please double-check the information, and some data, like the Entity Type, may need to be selected or entered if it can't be transferred.
